St Joseph Engineering College Mangalore CGPA: 8.21

•**Diploma in Computer Science and Engineering** 2020-23
Karnataka(Govt.)Polytechnic Mangalore CGPA: 8.32

PERSONAL PROJECTS

•SportsKart

An online sports equipment shopping application that allows users to browse and purchase a wide range of sports items.

- Designed to provide a smooth and responsive shopping experience with a modern user interface.
- It allows robust search,filtering functionalities and quickly find specific sports equipments.
- Technology Used: MongoDB, Express.js, React.js, Node.js (MERN Stack).

•RajMart

An online e-commerce application that enables users to browse and purchase products through a simple and efficient interface.

- Designed and developed a responsive e-commerce platform with secure OTP-based login and JWT authentication.
- Integrated Razorpay payment gateway and Cash on Delivery option, along with email confirmation using QR code for order tracking.
- Built an admin dashboard with pie charts, bar charts, and line charts to visualize and manage application data effectively.

•Catering Management System

Developed a user-friendly web application using Java for seamless food ordering time.

- It provides a interface for customers to browse menus, place orders easily, and automatically generates a detailed bill upon order submission.
- A JavaFX-based desktop application developed using Java, FXML, and CSS.

EXPERIENCE

•Codelab Systems

Full Stack Development

February - june 2023

Offline

- In-depth understanding of React.js, Node.js, and MongoDB for full-stack web application development.
- Technical expertise was one of the main things I needed to improve during my internship.
- I actively engaged in various projects and successfully contributed to their completion.This included "Football players Table application" and "SportsKart".

TECHNICAL SKILLS AND INTERESTS
