

RAJENDRA ACHARYA

+91-99021 84855 rajendracharyarr@gmail.com LinkedIn GitHub Portfolio Mangalore, Karnataka

SUMMARY

Motivated MERN Stack Developer with hands-on experience building and deploying full-stack web applications. Currently interning at Dregali Solutions, developing production-grade e-commerce features using React, Node.js, and MongoDB. Passionate about writing clean, scalable code and delivering seamless user experiences.

EDUCATION

St. Joseph Engineering College

B.E. in Computer Science

Mangalore, Karnataka

2023 – 2026 CGPA: 8.21

Govt. Polytechnic

Diploma in Computer Science

Mangalore, Karnataka

2020 – 2023 CGPA: 8.32

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Component-Based Architecture, State Management

Backend: Node.js, Express.js, RESTful Services

Databases: MongoDB (NoSQL), MySQL

Concepts: REST APIs, JWT (JSON Web Token) Authentication, CRUD, OOP, DBMS, Agile/Scrum

Tools & DevOps: Git, GitHub, VS Code, Razorpay Integration, Postman

EXPERIENCE

Full Stack Developer Intern

Jan 2026 – May 2026

Dregali Solutions

Mangalore, Karnataka

- Developed and maintained the **RajMart e-commerce web application** using the full MERN stack, contributing to 3+ major feature releases
- Implemented **JWT (JSON Web Token) authentication**, OTP login, and secure Razorpay payment integration, reducing checkout drop-off by improving security and UX
- Built **10+ RESTful API endpoints** handling product management, user accounts, and order workflows
- Designed responsive frontend using **React component-based architecture and Tailwind CSS**, improving mobile compatibility across device sizes
- Collaborated in an **Agile/Scrum** environment, participating in sprint planning and code reviews

Full Stack Developer Intern

Feb 2023 – Jun 2023

Codelab Systems

Mangalore, Karnataka

- Worked with **React, Node.js, and MongoDB** on real-world client projects, delivering 2 functional web applications
- Built dynamic UI components and improved frontend performance through **code debugging and optimization**
- Contributed to **SportsKart** and a Football Player Table app, handling product listing and player data management

PROJECTS

RajMart | Full-Stack E-commerce (MERN) | [Live](#) [Code](#)

- Built a scalable e-commerce platform with **JWT (JSON Web Token) authentication**, OTP verification, and Razorpay / COD payment options
- Integrated **QR-based order tracking** and a full admin dashboard with sales analytics, charts, and inventory reports
- Designed optimized **RESTful APIs** for product and order management; implemented **state management** for cart and user session handling

SportsKart | E-commerce Platform (MERN) | [Code](#)

- Developed a full-stack sports e-commerce app featuring **advanced search & filtering** for products across categories
- Built a **fully responsive UI** ensuring cross-device compatibility (mobile, tablet, desktop)
- Implemented REST APIs for **product catalog and user management**, supporting authentication and cart operations

Catering Management System | Desktop App (JavaFX) | [Code](#)

- Built a desktop application for **food ordering and automated billing**, streamlining catering operations
- Designed an intuitive UI using **JavaFX, FXML, and CSS**, focusing on ease of use for non-technical staff

ACHIEVEMENTS & ADDITIONAL

Achievements:

- Built and **deployed multiple MERN stack applications** to production with live URLs
- Strong understanding of **authentication systems**, REST APIs, and full-stack architecture
- Hands-on experience integrating **third-party payment services** like Razorpay

Soft Skills: Problem Solving, Adaptability, Self-Learning, Teamwork

Interests: Web Development, UI/UX Design, Full Stack Engineering
